Abstrak

Skripsi ini membahas permasalahan hak terhadap minoritas kultur dalam padangan filsafat politik mengenai keadilan, melalui penjabaran dan analisis terhadap pemikiran Will Kymlicka, terkhusus pada buku Multicultural Citizenship: A Liberal Theory of Minority Right. Penelitian ini dilakukan dengan pendekatan interpretatif-analisis. Hasil dari penelitian ini menunjukkan bahwa pengesampingan permasalahan kultural pada liberalisme-prosedural membuat permasalahan good life masuk dalam masalah privat, dibedakan dari masalah publik tentang justice, sehingga keadilan bagi minoritas kultur tidak dapat tersentuh oleh sistem. Di samping minoritas kultur yang membutuhkan struktur politik berperspektif multikultural, hak khusus terhadap minoritas kultur justru sejalan dengan teori liberal tentang keadilan. Dengan demikian teori liberal melalui pemberian hak khusus pada minoritas kultural memberikan harapan terhadap penyelesaian permasalahan kultural.

.....The focus of this study is to explain the problem of minority culture through political philosophy perspective concerning to the right discourse, by reporting the research that author did to Will Kymlicka, especially in Multicultural Citizenship: A Liberal Theory of Minority Right. This is an analytic-descriptive research. The results of this study indicate that the inconsideration of the cultural issues by procedural-liberalism brings the good life issues as a private matter. Therefore, the justice for minority culture cannot be touched by the system, because it is excluded from public matter. It implies that minority cultures need multicultural perspective as its political structure, specifically about the minority right. The right for minority culture is precisely in line with the liberal theory of justice. Thus, the liberal theory should count special right for minority culture.
