ABSTRAK

Studi ini dilakukan untuk mengemukakan strategi bisnis santri serta implementasi nilai-nilai salafiyah (ekonomi syariah) dalam bisnis modern yang dilakukan oleh pesantren tradisional. Metode kualitatif digunakan untuk mengungkapkan fakta-fakta menarik di dalamnya, yang temuannya mengindikasikan bahwa, pesantren tradisional dapat mentransformasikan nilai-nilai tradisional pesantren ke dalam kehidupan bisnis modern tanpa harus merubah struktur dasar pesantren, sehingga strategi pengembangan ekonomi yang demikian, mampu menjawab keraguan banyak kalangan bahwa pesantren tradisional dengan pelajaran-pelajaran Islam klasik bukanlah penghambat kemajuan sebuah lembaga, justru di sanalah nilai-nilai integrity, transparency, dan professionalisme diperlihatkan secara rasional dalam praktik ekonomi.

ABSTRACT

The study will uncover application of syari‟ah economic values in the context of modern economic activities, including their expansion strategies, practiced by the traditional Islamic boarding school. By using the qualitative method, it has been found that the traditional Islamic boarding school has been able to transform Islamic values to economic activities without rearranging the existing social structures (social structure of the Islamic boarding school). The economic development of the traditional Islamic boarding school has shown that the Islamic values applied by the traditional Islamic boarding school will not impede, but strongly contribute to economic enhancement. The traditional Islamic boarding school has extremely supported and applied values of economic activities for instance integrity, transparency, and professionalism.
