ABSTRACT

The focus of this study is to explain the influence of pioneer status, customer value and brand image towards brand attitude that occur on aromatherapy medicated oil Freshcare and Safecare. This research is mixed method with explanatory design. The data is collect by survey to 124 users of aromatherapy medicated oil as quantitative data and interview to 16 users of aromatherapy medicated oil as qualitative data addition. The results shows there is influence between customer value, and brand image against brand attitude on both brand. In Freshcare side, customer value is the most influencing variable toward brand attitude and in Safecare side, brand image is the most influencing variable toward brand attitude.
