Abstrak

Karya Akhir ini membahas pembaruan kebijakan subsidi bahan bakar fosil dan program Pengendalian Evaluasi dan Penilaian Polusi PROPER yang diterapkan di Indonesia terutama dalam memerangi emisi gas rumah kaca Pada Karya Akhir ini dijabarkan penjelasan dan perbandingan kedua kebijakan tersebut secara mendetil Hasil perbandingan menyarankan bahwa efektivitas pembaruan subsidi bahan bakar fosil dalam mengurangi emisi gas rumah kaca masih perlu diperbaiki sedangkan kebijakan PROPER sudah efektif namun seyogyanya ditingkatkan lagi.

.....The focus of this study is to assess and compare the Fossil Fuel Subsidy Reform and PROPER Program implemented in Indonesia especially in relation to the combat against GHG emissions This study depicts thorough explanations of and comparisons between the two policies in detail The result of the study suggests that the effectiveness of the Fossil Fuel Subsidy Reform in reducing the GHG emissions is still in immense need of improvement meanwhile the PROPER program has been efficient yet some improvements are believed to still be necessary.
