Abstrak

[Penelitian ini bertujuan untuk menjelaskan jenis dan proses pembentukan nomina. Nomina dapat dibentuk dari

kelas kata lain, dalam hal ini verba dan adjektif. Pembentukan nomina disebut juga dengan istilah Nominalisierung. Pada artikel di dalam majalah-majalah di Jerman, sering kali ditemukan nomina dengan bentuk

yang membuat pembaca sedikit kesulitan untuk memahaminya, misalnya komposita yang terdiri atas tiga nomina atau lebih. Oleh sebab itu, penelitian ini berfokus pada pembentukan nomina untuk menjelaskan polapola

pembentukan nomina dari kelas kata verba dan adjektif. Jika proses dan asal kata pada pembentukannya telah diketahui, arti dari tiap nomina dapat dipahami dengan benar. Penelitian deskriptif ini dilakukan dengan

teori pembentukan nomina dari Stephan Bopp. Hasil analisis menunjukkan bahwa nomina yang berasal dari akar

kata sebuah verba dengan penambahan sufiks -ung merupakan jenis pembentukan nomina yang paling banyak

muncul.;The aim of this research is to explain the types and means of noun forming. Noun can be formulated by other

lexical categories, such as verbs and adjectives. Noun forming is well-known as Nominalisierung. In German

magazines, unusual noun forming is often found, for instance, the use of three or more noun forming which is

difficult to understand. Thus, this research is focusing on elaborating the formation of noun forming from other

lexical categories, which are verbs and adjectives. The significance of this is due to understand the detailed knowledge of the noun by simplifying its form and derivation. This descriptive research uses the noun forming

theory from Stephan Bopp. The result proves that nouns which are formed by verb with suffix -ung often emerge., The aim of this research is to explain the types and means of noun forming. Noun can be formulated by other
