

Developmental psychology

Upton, Penney, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20359197&lokasi=lokal>

Abstrak

This accessible introductory text addresses the core knowledge domain of developmental psychology providing concise and focused coverage of the central concepts, research and debates in this key area. Chapters cover development across the lifespan, including the prenatal period, infancy, childhood, adolescence and adulthood. Each chapter also examines core topics such as the development of attachment, social relations, cognitive and language development and social and cultural contexts of development
