[ABSTRAK

Penelitian ini membahas pengorganisasian pemberdayaan ekonomi yang dilakukan oleh Divisi Sosial Ekonomi Pos Keadilan Peduli Ummat (Divisi Sosek PKPU) dan Masyarakat Mandiri Dompot Dhuafa (MM DD). Pendekatan penelitian yang dipergunakan adalah kualitatif dan strategi penelitiannya adalah studi kasus. Hasil penelitian menunjukkan pengorganisasian pemberdayaan ekonomi perlu memperhatikan dinamika internal organisasi, eksternal organisasi, dan kualitas pelayanan dengan berbagai elemennya melalui kaca mata sistem. Faith sebagai kekhasannya melebur pada setiap elemen yang terkandung dalam sistem dan tidak sekadar simbol. Sinergi dari keseluruhan data memunculkan model "sistem pengorganisasian pemberdayaan ekonomi". Model tersebut menerangkan kembali bahwa perubahan mustahik menjadi muzakki melalui pendayagunaan dana zakat bukanlah mitos.;
