#### Abstrak

Tesis ini membahas mengenai individualized outcome evaluation terhadap lima peserta Program Wirausaha Pemula dari DKI Jakarta tahun 2012. Penelitian ini menggunakan metode kualitatif dengan jenis penelitian evaluasi. Sedangkan pengumpulan data menggunakan wawancara mendalam dengan 7 informan yang terdiri dari 5 informan peserta program dan 2 informan pelaksana program.

Hasil penelitian menunjukkan bahwa empat peserta program telah mencapai outcome program, karena didukung oleh faktor trainee characteristic, training design, work environment, sikap dan konsep diri dalam berwirausaha serta desain usaha. Sedangkan satu informan yang tidak mencapai outcome, karena mengalami hambatan pada faktor work environment, sikap dan konsep diri serta desain usaha.

.....The thesis discusses about individualized outcome evaluation of young entrepreneur program evaluation at ministry of cooperatives and small medium enterprises for five beneficiaries from Jakarta City in 2012. This research used a qualitative approach with evaluation research. While collecting data using indepth interview with 7 informans which consist 5 beneficiaries program and 2 program staff.

This result of study show that 4 beneficiaries has achieve an outcome program because of the trainee characteristics, training design, work environment, attitude and self concept and design entrepreneurship factors support and 1 beneficiaries has a barrier in work environment, attitude and self concept and entrepreneurship design factors.
