

Environmental science

Kaufmann, Robert K., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20375354&lokasi=lokal>

Abstrak

Taking a different approach to the subject of environmental science, this title intertwines social science (economic systems and policy) with the natural sciences (energy). It shows students the relevancy between the underlying causes of environmental problems and how they are affected on a daily basis.
