Abstrak

[ABSTRAK

Desa siaga merupakan salah satu program yang digulirkan Depkes. Komponen kesiapan menjadi salah satu faktor penting terhadap terlaksananya program desa siaga. Penelitian ini bertujuan mengetahui kesiapan pengembangan desa siaga di Kabupaten Konawe Selatan, dengan menggunakan desain kualitatif untuk mengetahui informasi keberadaan komponen pengembangan desa siaga. Pengumpulan data dilakukan dengan metode diskusi kelompok terarah dan wawancara. Hasil penelitian menunjukkan bahwa dari Sembilan variabel yang harus dimiliki dalam pengembangan desa siaga, baru empat variabel yang sudah dimiliki. Kesimpulannya secara umum Kabupaten Konawe Selatan belum siap untuk pengembangan desa siaga. Dinkes Kabupaten diharapkan mampu meningkatkan pengadaan sarana prasarana Poskesdes yang sudah berjalan baik dan meningkatkan kemitraan dengan pemerintah kecamatan dan desa.
