

A generative approach to the phonology of bahasa Indonesia / by Hans Lapoliwa

Lapoliwa, Hans, translator

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20378486&lokasi=lokal>

Abstrak

The primary goal of this study is to present a phonological description of Indonesian language within a transformational generative framework. The description presented, (1) the problem of the representation of Indonesian language morphemes both on the phonological and phonetic levels, (2) the problem of the range of possible morphemes and segments in Indonesian language, and (3) the problem of phonetic forms of Indonesian language morphemes which, under certain circumstances, become different from their respective phonological.
