[<b>ABSTRAK</b><br>

SMP Negeri ?X? Depok merupakan salah satu sekolah unggulan yang berada di Depok. Letaknya yang berbatasan dengan Jakarta membuat remaja di sekolah ini dapat berpotensi berperilaku berisiko. Perkembangan seksualitas merupakan masa krisis bagi remaja. Untuk memenuhi rasa ingin tahu tentang seks dan kesehatan reproduksi remaja berusaha mencari akses dan melakukan eksplorasi sendiri tentang seks dan kesehatan reproduksi. Menurut beberapa penelitian remaja harus diberikan pendidikan seks sejak dini. Tujuan dari penelitian ini adalah untuk mengetahui persepsi remaja mengenai pendidikan seks di SMP Negeri ?X? Depok pada tahun 2014. Penelitian ini adalah penelitian kualitatif dengan teknik diskusi kelompok terarah dan wawancara mendalam dalam pengambilan data primer. Data diperoleh dari 12 informan yang berusia 13-14 tahun serta dari guru di SMP Negeri ?X? Depok. Hasil penelitian ini menunjukkan pendidikan seks dinilai oleh remaja sebagai sesuatu yang penting, bernilai positif, serta bermanfaat bagi mereka. Melalui pendidikan seks remaja dapat mengarahkan perilaku seksualnya. Remaja menganggap pendidikan seks dapat menjawab keingintahuan dan rasa penasaran mereka mengenai hal yang berkaitan dengan seks.;
