[<b>ABSTRAK</b><br>

Penelitian ini membahas mengenai bagaimana pelaksanaan koordinasi yang dilakukan oleh Dinas Pertamanan dan Pemakaman Provinsi DKI Jakarta dalam pengelolaan jalur pedestrian. Penelitian ini dilakukan dengan menggunakan pendekatan kualitatif melalui studi lapangan dan studi kepustakaan. Hasil penelitian menunjukkan bahwa pelaksanaan koordinasi Dinas Pertamanan dan Pemakaman Provinsi DKI Jakarta dalam pengelolaan jalur pedestrian dilakukan dari tahap perencanaan, pelaksanaan, dan pengawasan dengan mekanisme koordinasi hierarkis. Koordinasi horizontal dilakukan pada seluruh seksi dan bidang di Dinas Pertamanan dan Pemakaman sedangkan koordinasi vertikal dilakukan antara Dinas Pertamanan dan Pemakaman dan Asisten Pembangunan dan Lingkungan Hidup. Koordinasi eksternal dilakukan dengan pihak-pihak terkait yang berhubungan dengan pengelolaan jalur pedestrian

<b>ABSTRACT</b><br>

This research discusses how the coordination is done by DKI Jakarta Parks and Cemeteries Department on the management of pedestrian way. The study was conducted using a qualitative approach through field studies and literature studies. The results showed that the implementation of coordination was conducted in planning, implementation, and supervision using Coordination by Hierarchy-Type Mechanisms. Horizontal coordination is done at the entire section of DKI Jakarta Parks and Cemeteries Department while the vertical coordination was conducted between DKI Jakarta Parks and Cemeteries Department and Assistant for Development and Environment. External coordination is done with the relevant parties relating to the management of the pedestrian path.;This research discusses how the coordination is done by DKI Jakarta Parks and Cemeteries Department on the management of pedestrian way.
