Abstrak

[ABSTRAK]

Penelitian bertujuan untuk membandingkan secara komprehensif praktek Stakeholder Mapping yang menjadi alat untuk menentukan Who and What Really Counts di dalam organisasi nirlaba. Data studi kasus diambil dari dua organisasi nirlaba berbentuk yayasan di Indonesia. Organisasi nirlaba memiliki banyak stakeholder yang mempengaruhi operasional organisasi. Hal tersebut membuat perusahaan membutuhkan Stakeholder Mapping. Wahana Lingkungan Hidup dan Yayasan Keanekaragaman Hayati adalah contoh dua organisasi nirlaba yang bergerak di bidang lingkungan menjadi objek penelitian ini. Penulis melakukan penelitian dengan menggunakan metode wawancara di masing-masing organisasi. Penulis akhirnya dapat menyimpulkan stakeholder mana yang paling penting bagi dua organisasi nirlaba tersebut, dan mengambil persamaan kondisi stakeholder antara kedua organisasi nirlaba tersebut.
