Abstrak

[Arek Suroboyo adalah salah satu kelompok sosial yang berada di Blok M. Mereka mendominasi wilayah-wilayah di Blok M, sejak tahun 70 an hingga sekarang. Identitas sosial Arek Suroboyo yang mereka miliki merupakan suatu hal yang sangat penting bagi mereka memenuhi kebutuhan mereka dengan cara menjalankan kegiatan-kegiatan ekonomi informal yang diantaranya, dalam penelitian ini berupa juru parkir di perparkiran Pemda DKI dan profesi preman. Selain itu identitas sosial ini diakftifkan ketika mereka harus mempertahankan diri dari pihak yang mengganggu kegiatan ekonomi mereka, ataupun eksistensi mereka di Blok M. Jumlah mereka berkurang pada masa sekarang karena banyak di antara mereka yang beranjak tua, dan beberapa ada yang meninggal dunia karena sakit, tetapi hanya sedikit dari keturunan mereka di Jakarta yang menggantikan perannya di Blok M. Penelitian ini juga menggambarkan bagaimana kehidupan sosial Arek Suroboyo di Blok M pada masa sekarang. Dalam penelitian ini saya menggunakan metode kualitatif yang didukung dengan metode wawancara mendalam dan pengamatan.];The Arek Suroboyo is a social group in Blok M. They have a history of becoming a dominating social group in Blok M since the 70's. The social identity of Arek Suroboyo is really important to them to fulfill their daily needs by working on the informal sectors such as parking lot management supervised by Pemda DKI or working as preman. On the other hand, their social identity is also activated for defending themselves from their rival groups, which interrupt their daily activities on the informal sector. At presents, their numbers have been decreasing by the time being because there has been no regeneration within their rank these recent years. This research also describes about the social life of Arek Suroboyo in Blok M today in ethnographic writing. I applied qualitative method, namely in-depth interview and observation method for gathering the data., The Arek Suroboyo is a social group in Blok M.
