Abstrak

[ABSTRAK

Persoalan mengenai pendirian rumah ibadah yang masih sering terjadi dan kerap berujung pada konflik. Benih konflik yang terjadi pada pendirian Gereja Bernadet sudah ada sejak Tahun 1990 namun tidak diselesaikan secara tuntas. Konflik semakin melebar dan jauh dari pokok permasalahan. Penelitian ini menggunakan pendekatan kualitatif yang bertujuan untuk menganalisis dinamika konflik yang terjadi serta pola penanganannya. Hasil penelitian mengungkapkan bahwa akar permasalahan konflik adalah adanya pengaruh fundamentalisme dalam beragama. Konflik semakin berkembang ketika isu-isu keagamaan digunakan untuk membangun solidaritas konflik. Konflik diperburuk dengan adanya konflik vertikal antara tokoh masyarakat dengan Pemerintah Daerah. Dalam menyikapi konflik masyarakat menunjukkan sikap negatif dan perilaku koersif. Akibatnya konflik semakin mengakar dan berdampak pada menurunnya stabilitas daerah dan diikuti melemahnya ketahanan daerah. Dalam penanganan konflik menggunakan strategi manajemen konflik melalui pengendalian sosial.

ABSTRACT

The ongoing problems about the establishment of house of worship often ended with conflict. The seeds of conflict in the establishment of Bernadette Church has existed since 1990 but was not fully resolved. As the result, the conflict widened and led from subject matter. This study was conducted by using qualitative approach which aimed to analyze the dynamics of the conflict as well as the pattern of treatment. The results of the study revealed that the root cause of the conflict is the effect of religious fundamentalism. The number of conflicts were growing when religious issues used as the cause to build solidarity conflict. The conflict exacerbated by the presence of vertical conflict between community leaders and local government. In addressing conflict, community showed negative attitudes and coercive behavior. As the result, the conflict was deeply rooted, the stability of the region diminished and regional resilience weakened. In resolving the conflict, writer used conflict management strategy through social control;The ongoing problems about the establishment of house of worship often ended with conflict.
