[ABSTRAK

Kesediaan Jerman menandatangani perjanjian Two Plus Four memiliki implikasi terhadap penerimaan empat negara pemenang Perang Dunia II atas keberadaan Jerman. Hal ini menunjukkan bahwa Jerman bersedia menerima syarat-syarat yang diajukan dalam perjanjian "Two Plus Four Agreement" tersebut sebagai upaya membuktikan bahwa Jerman yang sekarang bukan lagi Jerman yang sama seperti sebelum Perang Dunia II. Pendekatan neorealis yang digunakan dalam analisis menunjukkan struktur internasional dapat mempengaruhi perilaku Negara. Hal ini sebagaimana ditunjukkan Jerman ketika bersedia menerima Two Plus Four Agreement yang disebabkan tiga hal, yaitu : 1). Memuluskan proses reunifikasi, 2). Upaya menjaga stabilitas di Eropa, 3). Membangun reputasi Jerman sebagai negara yang demokratis, bukan lagi sebagai Jerman yang fasis.

ABSTRACT

Germany's willingness to sign an agreement Two Plus Four has implications for the acceptance of the four winning countries of the World War II. This shows that Germany is willing to accept the terms proposed in the agreement "Two Plus Four Agreement" as an attempt to prove that Germany is now no longer the same as Germany before World War II. Neorealist approach used in the analysis shows the international structure can influence the behavior of the State. It is as shown in Germany when it is willing to accept the Two Plus Four Agreement which is due to three things: 1). Smooth the process of reunification, 2). Efforts to maintain stability in Europe, 3). Building a reputation of Germany as a democratic country, no longer as the fascist Germany.;Germany's willingness to sign an agreement Two Plus Four has implications for the acceptance of the four winning countries of the World War II.
