[ABSTRAK

KTT ASEAN di Bali pada tahun 2003 menyatakan akan terciptanya Komunitas ASEAN dengan tiga pilar utama. Untuk mempersiapkan Komunitas ini, para pemimpin ASEAN sepakat untuk membentuk suatu jejaring universitas di ASEAN yaitu ASEAN University Network (AUN) dimana programnya, ASEAN University Network- ASEAN Credit Transfer System (AUN- ACTS), memfasilitasi mobilitas mahasiswa di ASEAN dalam rangka memperkuat hubungan antar manusia (people-to-people relation) di kawasan. Namun data menunjukkan bahwa setelah program ini diimplementasikan terjadi penurunan angka mobilitas. AUN kurang memperhatikan ekspektasi mahasiswa ketika berencana belajar di negara ASEAN yang lain serta mengabaikan kebutuhan mahasiswa sehingga insentif yang ditawarkan AUN- ACTS bukan hal utama yang dicari oleh mahasiswa;

ABSTRACT

ASEAN Summit in Bali in 2003 declares the creation of ASEAN Community with three key pillars. To fortify this Community, leaders of ASEAN agreed to establish a network among universities in ASEAN, later known as ASEAN University Network (AUN) in which its program, ASEAN University Network- ASEAN Credit Transfer System (AUN- ACTS), facilitates student mobility in ASEAN in order to enhance people-to-people relations in the region. However, as this program has been implemented data demonstrates a decline in student mobility. AUN overlooked student expectations and needs leading the incentive put forward by AUN did not represent what students seek; ASEAN Summit in Bali in 2003 declares the creation of ASEAN Community with three key pillars.
