[ABSTRAK

Tesis ini membahas tentang Pelaksanaan Program Children Educational Support dalam mengurangi prevalensi anak jalanan oleh Yayasan ISCO. Dilatarbelakangi oleh masih banyak anak miskin rentan ke jalan akibat sulitnya akses ke layanan pendidikan. Penelitian ini menggunakan pendekatan kualitatif. Pengumpulan data menggunakan observasi dan wawancara dengan 9 informan. Hasil penelitian menunjukkan bahwa pelaksanaan program sudah berjalan dengan cukup baik ditandai dengan berkurangnya anak dampungan yang turun ke jalan disebabkan adanya pemberian bantuan dalam pendidikan formal dan non formal. Hal ini menjadikan terpenuhinya kebutuhan anak miskin untuk mendapatkan pendidikan sejak usia dini sehingga intensitas untuk bekerja di jalan terminimalisir.
