Abstrak

[ABSTRAK

Giant Hypermarket merupakan jenis pasar serba ada yang dibuat dengan format modern. Didalam Giant hypermarket dijual berbagai macam produk dan merek. Dalam penjualan berbagai macam produk, Giant Hypermarket memberi merek nama produknya dengan nama Giant atau disebut dengan store brand atau private label brand. Dengan adanya berbagai macam merek yang dijual oleh Giant Hypermarket, hal ini akan membuat persaingan diantara produk merek manufaktur dengan produk merek Giant. Dalam memenangkan persaingan merek maka Giant Hypermarket harus dapat mengetahui ekuitas produk merek tokonya. Komponen ? komponen yang membentuk ekuitas merek diantaranya persepsi kualitas, kesadaran merek/asosiasi merek, dan loyalitas merek.

Dari latar belakang permasalahan di atas, tujuan dari penelitian ini adalah mengetahui bagaimana pengaruh reputasi toko, citra komersial toko, dan citra harga toko terhadap pembentukkan ekuitas produk merek toko. Penelitian menggunakan kuesioner dengan metode pengumpulan data yaitu mall intercept interviews dengan responden sebanyak 200 responden. Teknik analisis yang digunakan Structural Equation Modelling (SEM). Hasil penelitian menunjukkan bahwa reputasi toko, citra komersial toko, dan citra harga toko berpengaruh positif terhadap persepsi kualitas dan kesadaran merek. Selanjutnya adanya hubungan yang positif antara persepsi kualitas dan kesadaran merek terhadap loyalitas merek. Dalam pembentukan ekuitas produk merek toko, maka terdapat hubungan positif diantara persepsi kualitas, kesadaran merek, dan loyalitas merek terhadap ekuitas produk merek toko. Penelitian ini diharapkan dapat memberikan informasi bagi para ritel untuk meningkatkan persaingan pada produk-produk merek tokonya.
