[ABSTRAK

Tesis ini mengkaji mengenai perkembangan bisnis perang di Amerika Serikat, dengan studi kasus pemanfaatan korporasi militer swasta Blackwater. kajian ini dilakukan untuk mendeskripsikan bisnis perang, ideology yang melatarbelakangi hingga kepada pemanfaatan korporasi militer swasta sebagai permasalahan utama untuk dikaji yang dikaji dengan menggunakan teori neoliberalisme. Penulis menggunakan data dari buku, jurnal, dan sumber-sumber lain yang mendukung yang sesuai dengan konteks. Penelitian ini menunjukkan bahwa pemanfaatan korporasi militer swasta dalam kasus ini Blackwater merupakan entitas dari market, yang lahir dari ideology neoliberalisme. Oleh sebab itu, ada hubungan antara ideology, market, dan korporasi militer swasta.

ABSTRACT

This thesis analyzes the development of the American warfare business, focusing on the case study of the utilization of the Blackwater private military corporation. This analysis is conducted through the description of the warfare business. The ideology that establishes the background of the utilization of the private military corporation is the main focus of this which is analyzed by using the Neo-liberalism theory. The writer uses data from books, journals, and other supporting source materials of relevant context. This research illustrates that the utilization of the private military corporation, in this case Blackwater, is a part of the market which is a product of the neoliberal ideology. Therefore, there is a connection between ideology, market, and private military corporations; This thesis analyzes the development of the American warfare business, focusing on the case study of the utilization of the Blackwater private military corporation.
