Abstrak

[ABSTRAK

Penelitian ini bertujuan mengidentifikasi dan memahami tindakan pustakawan sebagai agen dalam pengadaan koleksi tahun 2013 di Universitas Wijaya. Penelitian ini adalah penelitian kualitatif dengan pendekatan fenomenologi. Hasilnya menunjukkan pengadaan koleksi yang dilakukan melalui sistem pengadaan barang kurang mendukung pengembangan koleksi perpustakaan. Penyusunan rencana yang menyimpang dari kebutuhan nyata dosen dan mahasiswa serta kelemahan pustakawan menggunakan wewenangnya dalam pengadaan praktik yang timbul karena adanya agen pengadaan. Kesadaran agen, mengubah struktur menjadi lebih aktif melibatkan pihak fakultas dan proses pengadaan yang menekankan permasalahan pengadaan diselesaikan sesuai aturan meskipun hasilnya kurang mendukung pengembangan koleksi perpustakaan Wijaya dan kurang memenuhi kebutuhan koleksi fakultas. Konsekuensi tindakan agen dinilai gagal menyerap anggaran yang tersedia dan sistem pengadaan koleksi selanjutnya dikembalikan ke pola pengadaan di Fakultas masing-masing dengan pustakawan dan perencanaan yang lebih kompeten.
