### Abstrak

[<b>ABSTRAK</b><br>

Tesis ini membahas mengenai peran Barack Obama memimpin Amerika Serikat untuk perundingan perubahan iklim global. Permasalahan yang diangkat dalam penelitian ini adalah bagaimana Obama membawa gagasan Amerika Serikat untuk mengatasi perubahan iklim akibat pemanasan global. Presiden Obama tidak memungkiri fakta perubahan iklim yang sedang terjadi sebagai sebuah tragedy of the commons. Di sisi lain, Presiden Obama tidak bisa terlepas dari kepentingan nasional Amerika dengan memotong emisi sesuai target mengikat Protokol Kyoto. Obama memiliki target penurunan emisi sendiri untuk diterapkan Amerika Serikat, untuk itu Obama mendorong perundingan iklim global menerapkan pemotongan emisi sukarela. Hasil penelitian menunjukkan Presiden Obama berperan sebagai pemimpin AS yang Aktif-Positif.

<b>ABSTRACT</b><br>

This thesis discusses the role of Barack Obama as United States leader during the global climate change negotiations. The focus of this research is how President Obama imposes ideas for solution to the challenge of climate change due to global warming. President Obama does not deny the fact that climate change has been happening as a tragedy of the commons, but he couldn't abandon the national interests of America to reduce emission as arranged through the legally binding agreement of The Kyoto Protocol. President Obama has his own emission reduction targets for United States. So, he encourages non-legally binding protocol to cut emission. The result also shows that President Obama has a role as Positive-Active United States leader; This thesis discusses the role of Barack Obama as United States leader during the global climate change negotiations.
