Tesis ini membahas hasil penelitian mengenai Rasa Tidak Aman Diri Sebagai anggota Polri: Menghadapi aksi teror dan kekerasan yang dilakukan oleh masyarakat. Fakta yang terjadi menunjukkan bahwa kasus aksi teror dan kekerasan yang dilakukan oleh masyarakat terhadap Polri semakin meningkat, sehingga menyebabkan beberapa anggota Polisi tewas. Penelitian ini dilakukan dengan metode pengamatan lapangan didukung dengan metode wawancara dan menghimpun dokumen terkait. Wawancara dilakukan kepada para masyarakat dan petugas Polri. Hasil penelitian dianalisis secara kualitatif deskriptif. Hasil penelitian menunjukkan bahwa maraknya aksi teror dan kekerasan yang dilakukan oleh masyarakat terhadap Polri dikaitkan dengan teori Durkheim dapat dikatakan merupakan salah satu bentuk dari perkembangan masyarakat yang sederhana ke masyarakat yang modern. Dikaitkan dengan teori rasa Ki Ageng Suryomentaram, merupakan manifestasi dari istilah mulur-mungkret. Dikaitkan dengan teori kebutuhan Abraham Maslow, maka polisi pun memerlukan rasa aman. Sedangkan dikaitkan dengan teori kekerasan menurut Johan Galtung, aksi teror dan kekerasan yang dilakukan oleh masyarakat terhadap Polisi merupakan bentuk kekerasan langsung. Dengan semakin maraknya aksi teror dan kekerasan terhadap anggotanya, maka menuntut Polri sebagai organisasi melakukan manajemen sekuiriti yang baik, yakni membuat upaya keamanan dan pencegahan terjadinya kekerasan agar tidak terjadi gangguan yang dapat menimbulkan kerugian dengan dasar efektif dan efisien, diantaranya: (1) Memakai Baju Rompi Anti Peluru; (2) Kegiatan Patroli dilakukan Minimal oleh dua orang; (3) Pelaksanaan SOP yang Sesuai; (4) Peningkatan Keahlian Anggota Polri terutama dalam Bela Diri; dan (5) Reformasi Birokrasi Polri.
