Abstrak

Siswa SMU yang bergabung dengan geng dan klub motor Bandung telah melakukan berbagai macam aktivitas yang meresahkan diantaranya tawuran, penjambretan, penganiayaan hingga memerkosa. Menurut Koeswara (1998), perilaku agresif dipengaruhi oleh model-model agresif dimana didalamnya terdapat pengaruh tayangan yang berisi adegan kekerasan di televisi, bioskop dan sarana lainnya. Selain itu perilaku agresif juga tidak lepas dari peran keluarga terutama kedua orang tua didalam mendidik anak-anaknya.

Hasil penelitian menunjukkan, ada implikasi antara tayangan kekerasan di media televisi dan kurang perhatian orang tua terhadap perilaku agresif siswa SMU di Kota Bandung. Ketahanan keluarga belum berfungsi karena perilaku agresif siswa SMU di kota Bandung masih terjadi.

High school students who join gangs and motorcycle clubs in Bandung has done a variety of activities such disturbing brawl, mugging, assault to rape. According Koeswara (1998), aggressive behavior is influenced by the aggressive models impressions which there are influences which contains scenes of violence on television, movies and other means. In addition, aggressive behavior can not be separated from the role of the family, especially the parents in educating their children.

The results showed, there are implications between violence on television and less attention to the aggressive behavior of parents of high school students in the city of Bandung. Family resilience is not functioning due to the aggressive behavior of high school students in the city is still going on.
