Abstrak

[ABSTRAK

Dalam rangka mempersiapkan apoteker yang siap mengemban tugas pekerjaan kefarmasiannya secara profesional, Praktek Kerja Profesi Apoteker (PKPA) di Apotek perlu diselenggarakan sebagai wujud pelatihan untuk menerapkan ilmu yang telah diperoleh selama perkuliahan secara langsung dan mengetahui aspek teknis dan operasional seluruh kegiatan di apotek. PKPA untuk apotek kali ini diselenggarakan di Apotek Atrika, Jalan Kartini Raya No. 34, Jakarta Pusat pada periode Maret dan Mei 2014. Apoteker memegang peran dan tanggung jawab yang sangat vital dalam pengelolaan kegiatan apotek. Sebagai Apoteker Pengelola Apotek (APA), diperlukan kompetensi yang memadai dalam pelaksanaan tanggung jawab profesi yang mencakup ilmu kefarmasian dan keterampilan wirausaha demi kemajuan dan eksistensi apotek yang dikelolanya. Apotek Atrika merupakan sarana apotek yang ideal sebagai tempat PKPA, karena telah mempunyai dan menerapkan sistem dalam pengelolaan kegiatan operasional apotek, yang mencakup sejumlah aspek teknis, yakni: perencanaan dan pengadaan barang yang efisien, penyimpanan dan penataan persediaan yang teratur, arus barang keluar dan masuk terdokumentasi, pelayanan berorientasi pasien, pengelolaan dan pengawasan keuangan dan administrasi memadai, serta kegiatan promosi yang sesuai dengan peraturan yang berlaku.
