[<b>ABSTRAK</b><br>

Praktek Kerja Profesi Apoteker (PKPA) di apotek merupakan kegiatan wajib untuk dapat memperoleh gelar apoteker. Apotek merupakan salah satu tempat pengabdian seorang apoteker dalam dunia kerja. Apoteker sebagai penanggung jawab sebuah apotek memiliki peran yang besar dalam menjalankan fungsi apotek baik sebagai profesional, manajerial dan retailer. Oleh karena itu kegiatan PKPA di Apotek Kimia Farma No. 42 ini dapat meningkatkan pemahaman calon apoteker mengenai peranan, kegiatan manajerial dan sistem pelayanan kefarmasian di apotek. Laporan PKPA ini memuat kegiatan calon apoteker selama 1,5 bulan di apotek serta membandingkan teori yang diperoleh di kampus dengan fakta yang dilihat di lapangan. Dari kegiatan PKPA yang dilakukan, pada akhirnya diharapkan dapat menghasilkan apoteker masa depan yang profesional, berwawasan, dan memiliki keterampilan yang cukup.
