

Molecular descriptors for chemoinformatics vol II : appendices, references / Roberto Todeschini and Viviana Consonni

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20394259&lokasi=lokal>

Abstrak

The number-one reference on the topic now contains a wealth of new data. The entire relevant literature over the past six years has been painstakingly surveyed, resulting in hundreds of new descriptors being added to the list, and some 3,000 new references in the bibliography section. Volume 1 contains an alphabetical listing of more than 3300 descriptors and related terms for chemoinformatic analysis of chemical compound properties, while the second volume lists over 6,000 references selected from 450 journals. To make the data even more accessible, the introductory section has been completely re-written and now contains several "walk-through" reading lists of selected keywords for novice users.
