Abstrak

This book and note the change in the trajectory of Korea and the Korea World War study and understanding of our society, 30 years after the Gwangju Uprising summarizes. What this book is significantly different from the general hakjisa () and researcher, is that the time change in the academic debate over the internal review of the academic and social change together. In short, the history of the ring to the knowledge society and interactive, face-to-face or will want to consider how the society and history. Society includes all the world, such as South Korea and North Korea, decline or collapse of socialism, South Korea's democratization and giant
