[ABSTRAK

Sengketa Spratly Islands terjadi sebagai akibat dari klaim tumpang tindih beberapa negara terhadap sebagian atau seluruh wilayah Spratly Islands. Sengketa ini menjadi semakin kompleks karena tingginya nilai strategis Spratly Islands tidak hanya bagi negara yang bersengketa, tetapi juga bagi negara-negara di sekitar Spratly Islands dan negara-negara besar. Terjadinya konflik di masa lalu menyebabkan kekhawatiran akan terjadi kembali konflik terbuka yang akan berdampak pada terganggunya perdamaian dan keamanan regional Asia Tenggara. Berkenaan dengan sengketa ini, ASEAN sebagai organisasi internasional regional Asia Tenggara, telah berupaya untuk meredakan ketegangan dan konflik yang ada. Hal ini mengingat kerangka hukum ASEAN memberikan mandat kepada ASEAN untuk menjaga perdamaian dan stabilitas regional.

ABSTRAK

<i>Spratly Islands dispute occurred as a result of overlapping claims of some countries. The dispute becomes increasingly complex due to the high value of Spratly Islands, not only for the claimant states, but also for the littoral states and other countries. Conflict happened in the past leads to concern of another conflict in the future that would impact the disruption of peace and stability in region Southeast Asia. With regard to the dispute, since its legal frameworks provide mandate for ASEAN to maintain regional peace and security, ASEAN as a regional organization, has sought to reduce tensions and conflicts that exists.</i>, Spratly Islands dispute occurred as a result of overlapping claims of some countries.
