

Cone beam computed tomography : oral and maxillofacial diagnosis and applications

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20396039&lokasi=lokal>

Abstrak

Technology and principles using cone beam computed tomography / Matthew Jacobson -- The nature of ionizing radiation and the risks from maxillofacial cone beam computed tomography / Sanjay M. Mallya and Stuart C. White -- Diagnosis of jaw pathologies using cone beam computed tomography / Sharon Brooks -- Diagnosis of sinus pathologies using cone beam computed tomography / Aaron Miracle and Christian Guñldner -- Orthodontic and orthognathic planning using cone beam computed tomography / Lucia H.S. Cevidanes, Martin Styner, Beatriz Paniagua, Joaõ Roberto Goncsalves -- Three-dimensional planning in maxillofacial reconstruction of large defects using cone beam computed tomography / Rutger Schepers, Gerry M. Raghoebar, Lars U. Lahoda, Harry Reintsema, Arjan Vissink, and Max J. Witjes -- Implant planning using cone beam computed tomography / David Sarment -- CAD/CAM surgical guidance using cone beam computed tomography / George A. Mandelaris and Alan L. Rosenfeld -- Assessment of the airway and supporting structures using cone beam computed tomography / David D. Hatcher -- Endodontics using cone beam computed tomography / Martin D. Levin -- Periodontal disease using cone beam computer tomography / Bart Vandenbergh
