

Decision policies for production networks

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20396631&lokasi=lokal>

Abstrak

The financial results of any manufacturing company can be dramatically impacted by the repetitive decisions required to control a complex production network be it a network of machines in a factory; a network of factories in a company; or a network of companies in a supply chain. Decision policies for production networks presents recent convergent research on developing policies for operating production networks including details of practical control and decision techniques which can be applied to improve the effectiveness and economic efficiency of production networks worldwide. ;
