

Electoral systems: paradoxes, assumptions, and procedures

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20396682&lokasi=lokal>

Abstrak

Both theoretical and empirical aspects of single- and multi-winner voting procedures are presented in this collection of papers. Starting from a discussion of the underlying principles of democratic representation, the volume includes a description of a great variety of voting procedures. It lists and illustrates their susceptibility to the main voting paradoxes, assesses (under various models of voters' preferences) the probability of paradoxical outcomes, and discusses the relevance of the theoretical results to the choice of voting system.;
