Abstrak

This volume features nine in-depth cases of family-owned business from a variety of industries to illuminate the dynamics of governance, succession, and inheritance. Each case illustrates the complexity of issues and, through interactive exercises and questions, offers readers approaches to solutions, which may include less-than-optimal compromises or even selling the business as the only viable option. The examples and insights will prove valuable for students and members of entrepreneurial and family-owned firms, as well as consultants, investors, and other professional advisors.
