

The Science of composting

Epstein, Eliot, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20397284&lokasi=lokal>

Abstrak

Composting : a prospective

Basic concepts

Microbiology

Biochemistry

Stability, maturity and phytotoxicity

Trace elements, heavy metals and micronutrients

Organic compounds

Pathogens

Bioaerosols

Odors and volatile organic compounds

Soil physical and chemical manifestations

Utilization of compost

Compost utilization II

Regulations.
