

Karst hydrogeology and geomorphology / by Derek Ford and Paul D. Williams

Ford, Derek

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20397481&lokasi=lokal>

Abstrak

Summary:

"Karst Hydrogeology and Geomorphology is a fully revised and updated version of the extensively used and widely cited Karst Geomorphology and Hydrology published in 1989. This systems-orientated book is based on the authors' own teaching, research, consulting and international experience and includes wide international citations and illustrations. This edition features a stronger emphasis on karst hydrogeology, applied aspects of karst and practical problems of karst as well as computer modelling. New developments in the field such as ground penetrating radar cosmogenic exposure age dating and mass spectrometer techniques are evaluated."--Jacket
