

The next generation of responsible investing

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20397521&lokasi=lokal>

Abstrak

In the face of the recent financial crisis there is increased focus on long-term investment strategies. This is particularly true for institutional investors who manage our retirement savings. Simultaneously there is increased demand that financial assets be invested with an understanding of long-term environmental and social sustainability. Responsible investing provides a long-term sustainable investment strategy that values environmental, social and governance (ESG) factors in investment decision-making. Responsible Investing has always had a broad mandate. Put simply, it is a long-term sustainable investment strategy that seeks to reduce risk in investment portfolios through managing ESG issues in today's corporations. The next generation of responsible investment explores this topic in an edited volume intended for those with an interest in finance and business.
