

Human : the science behind what makes us unique

Gazzaniga, Michael S., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20397765&lokasi=lokal>

Abstrak

One of the world's leading neuroscientists explores how best to understand the human condition by examining the biological, psychological, and highly social nature of our species within the social context of our lives. In *Human*, Gazzaniga explores a number of related issues, including what makes human brains unique, the importance of language and art in defining the human condition, the nature of human consciousness, and even artificial intelligence
