

Karst management

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20397788&lokasi=lokal>

Abstrak

Focusing specifically on the management of karst environments, this volume draws together the world's leading karst experts to provide a vital source for the study and management of this unique physical setting. Although karst landscapes cover 12% of the Earth's terrain and provide 25% of the world's drinking water, the resource management of karst environments has only previously received indirect attention. Through a comprehensive approach, Karst Management focuses on engineering issues associated with surface karst such as quarries, dams, and agriculture; subsurface topics such as the manag
