

Biomedical applications of nanotechnology

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20397909&lokasi=lokal>

Abstrak

Contents :

Biological applications of multifunctional magnetic nanowires / Edward J. Felton and Daniel H. Reich --
Nucleic acid delivery and localizing delivery with magnetic nanoparticles / Christian Plank ... [et al.] --
Magnetic nanoparticles in cancer diagnosis and hyperthermic treatment / Robert H. Kraus, Jr. and Bradford
Wright -- Brownian motion in biological sensing / Axel Hoffmann ... [et al.] -- Dendrimers and
hyperbranched polymers for drug delivery / Rangaramanujam M. Kannan, Omathanu P. Perumal, and
Sujatha Kannan -- Nanogels : chemistry to drug delivery / Murali Mohan Yallapu, Maram K. Reddy, and
Vinod Labhasetwar -- Targeted gold nanoparticles for imaging and therapy / Raghuraman Kannan and
Kattesh V. Katti -- Building blocks of nucleic acid nanostructures : unfolding thermodynamics of
intramolecular DNA complexes / Luis A. Marky ... [et al.] -- Nanotoxicology / Diandra L. Leslie-Pelecky.
