

Environmental epidemiology / edited by Paul Wilkinson

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20398001&lokasi=lokal>

Abstrak

The impact of the environment on human health is of growing concern to the public, politicians and public health practitioners. This book describes the methods available for public health practitioners to enable investigations to be carried out and how findings should be interpreted to ensure that the most appropriate policies are adopted.
