

Service orientation in holonic and multi-agent manufacturing control

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20398800&lokasi=lokal>

Abstrak

The Service Oriented Architecture (SOA) analysed throughout the book represents a technical architecture, a business modelling concept, a type of infrastructure, an integration source and a new way of viewing units of automation within the enterprise. The primary goal of SOA is to align the business world with the world of information technology in a way that makes both more effective.

This book gathers contributions from scientists, researchers and industrialists on concepts, methods, frameworks and implementing issues addressing trends in the service orientation of control technology and management applied to manufacturing enterprise.
