Abstrak

[From a broad and varied background, the editors have compiled a rare group of contributors uniquely qualified to address questions about the current state of archaeology and its relevance in society. There is no single answer to the question of how the field of archaeology should develop, and what it can do for society. Instead, the authors in this volume lay out the many ways in which archaeology is relevant to the present day, considering, for example, climate change, energy exploration, warfare, national identity, the importance of stories and how they are told, and how and why opportunities to engage with the past through museums, digs, television, classes, and the print media have the form they currently do, creating a state-of-the-art tool for archaeologists, policymakers and the public alike to understand the work of many in the field and address the challenges we all face.], From a broad and varied background, the editors have compiled a rare group of contributors uniquely qualified to address questions about the current state of archaeology and its relevance in society.
