

Doing clinical ethics: a hands-on guide for clinicians and others

Sokol, Daniel K.

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20399885&lokasi=lokal>

Abstrak

In this Brief, Daniel Sokol interprets 'doing medical ethics' broadly to capture the application of ethical knowledge to a concrete situation, rather than just resolving a moral dilemma contained within a case. It instructs clinicians on how to identify and analyse a clinical ethics case, and guides the reader in publishing in general medical, specialist medical, and medical ethics journals, and through presenting on ethical issues at conferences. In addition to this, advice on how to teach medical ethics, and apply for research ethics approval, is included. ​
