

Space technology export controls and international cooperation in outer space

Mineiro, Michael C.

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20400901&lokasi=lokal>

Abstrak

This book, these and other relevant questions on space technology export controls are identified and assessed through an insightful case-study of the U.S. commercial communication export control regime. The findings of this case-study are used in an international legal-political analysis of international space law, public international law, and international cooperation. Breaking new ground in international legal theory, a self-justified security dilemma that is manifest in international law is identified and explained as the origin for the current paradigm of space technology export controls.
