Abstrak

This book addresses the topic of the scope and impact of Europeanization on national legislation, as a part of the Europeanization debate which raises normative concerns linked to the 'democratic deficit' debate. The aim of the book is to give a solid and comparative insight into Europeanization focusing on effective outcomes in a systematic way. This book analyzes the period 1986-2008 and includes an introduction, a global overview of European legislative activities which set the background for Europeanization of national legislatures, 9 country contributions (8 EU member states + Switzerland) including systematic, comparative and standardized data, tables and figures, and a conclusion with a comparative analysis of the European and domestic reasons for Europeanization.
