Abstrak

In addition to offering insights into how middle classness was and is constituted and negotiated, this collection illuminates the cultural and social conditions of two distinctive periods in Vietnamese history. Still a sensitive topic politically, the contemporary middle class, nascent but increasingly powerful, is exerting a strong impact on the shape of contemporary society and culture, as well as on urban and rural landscapes. This volume offers a series of studies which critically interrogate the practices of those who engage in or aspire to urban middle-class lifestyles in Vietnam both in the past and in the present.
