

Human medical research : ethical, legal and socio-cultural aspects / Jan Schildmann ...[et al.], editors

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20401544&lokasi=lokal>

Abstrak

This book gathers the contributions of researchers from nine different countries, who analyse recent developments in medical research from ethical, historical, legal and socio-cultural perspectives. In addition to reflections on innovations in science such as genetic databases and the concept of “targeted therapy” the book also includes analyses regarding the ethico-legal regulation of new technologies such as human tissue banking or the handling of genetic information potentially relevant for participants in medical research.
