

New technologies for toxicity testing

Balls, Michael, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20401689&lokasi=lokal>

Abstrak

The central theme running through this volume on New technologies for toxicity testing is the development and application of advanced techniques for cell and tissue culture, as well as new markers and endpoints of toxicity, as alternatives to the traditional paradigm of relying on data from laboratory animal tests to undertake labelling and risk assessment.
