

Effective parameters of hydrogeological models

Gorokhovski, Vikenti, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20402008&lokasi=lokal>

Abstrak

In this book the author describes how to obtain the best-possible results in simulations, based on the available data and predefined criteria that are turned into transforming mechanisms. The latter are mathematical expressions for evaluating model parameters supporting effective simulations. Examples of the mechanisms as well as methods of their evaluation are provided in this book. It is also shown how these mechanisms can be used for the interpretation of hydrogeological data.
